EWOPS Total Acres Developed

EWHPs Total Acres Developed

Excerpt From Independent Consultant's Report

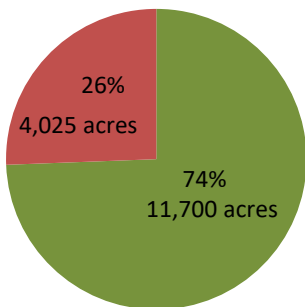

All land development works are on schedule. Field planning of oil palm is being implemented smoothly. Generous manuring program has been kept to schedule. Field palms are growing and doing very well with many fields coming to maturity a few months ahead of schedule. 3,792 tons of FFB were harvested in first half of 2018. Total FFB production for 2018 is expected to be more than 10,000 tons. Some fields will definitely produce at least 10 tons per acre of FFB in the future.

Excerpt From Independent Consultant's Report

This project has started off very successfully and has continued to progress per schedule. 1,000 acres of land are currently being prepared for development. Overall standard of upkeep in all developed areas remain highly acceptable to good. 4,100 acres of planted area have recently been declared as coming to maturity. Scout harvesting was initiated in all areas and some well formed bunches were produced during the year from matured fields. For 2018 to-date, FFB production was 2,444.26 tons.
