- **Latest prospectus:** Dated 8th March 2016 and expires on 7th September 2016

EWOPS Total Acres Developed

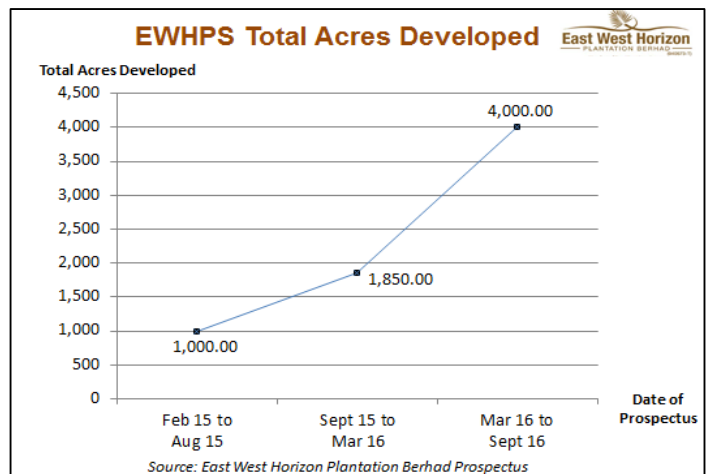

A total of 9,980 acres of land have been developed. There are now around 207,000 seedlings of various ages being grown in three (3) of our nurseries. Total areas developed will increase to 12,000 acres once all the seedlings are planted out.

534.34 tons of fresh fruit bunches were scout harvested by the end of November 2015. This production is way ahead of forecast by almost a year.

Excerpt From Independent Consultant's Report

Top management has been very generous and supportive in the provisions of all supervision vehicles and all required plants and machineries. With adequate machineries and workers/ operators on site and with a strong management/ supervisory team internally, the development of this project is expected to be successfully implemented and on time.

EWHPs Total Acres Developed

A total of 4,000 acres of land have been developed. Clearing and terracing works are in full swing on another 1,500 acres. These areas are expected to be planted within the next six months. Field planting, supplying and in fillings have been on-going since the past six months.

Excerpt From Independent Consultant's Report

Standard of upkeep in the developed areas is acceptable to good. The management has provided very generous fertilizers program for the year 2016. An experienced management team is in place, with HQ providing very adequate supervision vehicles for supervision. The number of workers at site is more than sufficient to upkeep all the developed areas, with many on standby to do future field planting.
