

Notice to Planters.

Date: 17th September 2024

Subject: CONCERN on the wellbeing of East West One Group (EWOG)

Dear Valued Planters,

We would like to update you on the latest developments affecting East West One Group (EWOG).

As a result of the destructive initiatives and provocations of some individuals (of which the most radicals are non-planters), a group of minority investors holding less than 10% of the company's total investment has caused irreparable damage to EWOG's welfare and progress.

Their actions have brought about damage and losses to EWOG and also disrupted the financial flow of the company that is needed to ensure the smooth running and progress of our projects, plans, and plantations.

As a result of oversight and neglect of some legal technicalities, charges were brought against the management, resulting in further disruptions of "company rescue plans" and possible abandonment and/or neglect of these projects, which will further hinder the progress and potential profits or returns to the company from these projects, thus affecting the welfare, financial health, and progress of EWOG and also the interests of the planters.

The management has pledged our full cooperation to any investigations and will face all legal impediments.

However, this unfortunate development has created many uncertainties and burdened the company's with more problems affecting its daily operations, and there is now a sudden vacuum in the management that may leave EWOG's with more damages and irreparable losses.

The actions of these minorities and non-planters have gone against the spirit and intent of the majority planters who have approved the proposed plans and actions to be taken by the management during the planters' meeting held on 12th August 2024 for the Rehabilitation and Restructuring (R&R) exercise.

The authorities have yet to release the necessary funds to commence the rescue process. To date, the company has successfully complied and fulfilled all its obligations for the required funds to be released for the R&R exercise, and we are approaching a solution in sight.

Any obstructions or actions to halt these funds will cause the failure of much-needed R&R measures.

Any further delay of the revival of our plantation progress may result in a bigger loss or total damage to the plantation. We urge all investors to reflect on the current situation. The continuous disruptions by the minority group of investors are hindering progress and putting the company and all stakeholders at risk.

Should these actions continue, it could lead to an actual loss situation where the company, and consequently, the investments of all stakeholders, could be wiped out.

We remain committed to providing updates on the developments and will keep all planters informed on the efforts to rescue the company and benefit the planters.

Thank you for your ongoing support and understanding during this critical time.

Sincerely,
East West One Group Management.
